# **SOYBEANS**

S26-E3BRAND

## **Top-end Yield Potential with Unique Peking Source of Soybean Cyst Nematode Resistance**

- Strong Sudden Death Syndrome tolerance
- Great standability for the highly productive acre
- Best performance in mid- to high-yield environments

#### **Plant Characteristics**

| Plant Height         | Medium        |
|----------------------|---------------|
| Canopy Index         | 4.62          |
| Branching            | Moderate      |
| Growth Habit         | Indeterminate |
| Flower Colour        | Purple        |
| Pubescence Colour    | Gray          |
| Pod Colour           | Tan           |
| Hilum Colour         | Buff          |
| Chloride Sensitivity | Includer      |

#### **Disease Ratings**

### **Agronomic Traits**

| Emergence              | 2         |
|------------------------|-----------|
| Standability           | 2         |
| Shatter Tolerance      | 2         |
| Green Stem             | 2         |
| Estimated Seed Size    | Small     |
| Protein                | Average   |
| Oil                    | Very High |
| Narrow Rows            | 1         |
| Wide Rows              | 2         |
| Metribuzin Response    | Best      |
| Sulfentrazone Response | Good      |

#### **Diseases and Pests**

| Phytophthora Root Rot (PRR) Source | Rps1k  |
|------------------------------------|--------|
| Soybean Cyst Nematode (SCN) Races  | CMH/P  |
| (SCN) Source                       | Peking |
| Root Knot Nematode (RKN) Incognita | -      |

#### **Adaptation to Soil Types**

| Drought Prone                  | Fair |
|--------------------------------|------|
| High pH*                       | Good |
| Highly Productive              | Best |
| Moderate/Variable Environments | Good |
| Poorly Drained                 | Good |
