Brands Available: NK9231-AA

Agrisure® Above

Excellent Yield Potential with Versatility Across Variable and Drought Prone Soils

- Strong emergence that allows for early planting in cool soils
- Boasting remarkable staygreen and a striking late-season appearance
- Semi-flex ear allows for plant population flexibility

1-9 Scale: 1 = Best, Tallest or Highest; 9 = Worst, Shortest or Lowest; (-) = Not Available.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn and soybeans, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.

Performance evaluations are based on field observations and public information. Data from multiple locations and years should be consulted whenever possible. Individual results may vary depending on local growing, soil and weather conditions. IMPORTANT: ALWAYS READ AND FOLLOW SEED BAG/TAG DIRECTIONS.
